

Schlumberger Announces Deployment of Reservoir Engineering Digital Solutions for Global Customer

March 7, 2022

Schlumberger's cloud-based solutions have the potential to digitally transform worldwide reservoir engineering modeling to achieve vast increases in innovation, efficiencies, and performance

HOUSTON--(BUSINESS WIRE)--Mar. 7, 2022-- Schlumberger today announced an enterprise-wide deployment of the cloud-based DELFI* cognitive E&P environment for ConocoPhillips. ConocoPhillips will use Schlumberger digital solutions enabled by the DELFI environment to bring its reservoir engineering modeling, data and workflows to the cloud.

"This digital platform will drive workflow and data efficiency, enabling ConocoPhillips to meet their diverse reservoir engineering modeling needs worldwide," said Rajeev Sonthalia, president, Digital & Integration, Schlumberger. "Expert teams from both companies will work closely together to integrate our cloud-based digital solutions and AI with ConocoPhillips' reservoir engineering modeling and workflows."

Upon completion of the integration, ConocoPhillips reservoir engineers will have access to cloud-based, high-performance computing resources in the DELFI environment as well as Schlumberger's reservoir engineering solutions—including Petrel* E&P software platform's Petrel Reservoir Engineering, INTERSECT* high-resolution reservoir simulator, and ECLIPSE* industry-reference reservoir simulator.

About Schlumberger

Schlumberger (SLB: NYSE) is a technology company that partners with customers to access energy. Our people, representing over 160 nationalities, are providing leading digital solutions and deploying innovative technologies to enable performance and sustainability for the global energy industry. With expertise in more than 120 countries, Schlumberger collaborates to create technology that unlocks access to energy for the benefit of all.
