

## SLB launches AI-powered Lumi platform

September 17, 2024

### New platform accelerates advanced data and AI capabilities at scale for SLB's customers across the energy industry

MONACO--(BUSINESS WIRE)--Sep. 17, 2024-- Global energy technology company SLB (NYSE: SLB) today launched the Lumi™ data and AI platform, which integrates advanced artificial intelligence (AI) capabilities—including generative AI—with workflows across the energy value chain.

This press release features multimedia. View the full release here: <https://www.businesswire.com/news/home/20240916077102/en/>

The Lumi platform is built on the latest industry standards and will be available on all major cloud service providers as well as on-premises, ensuring its availability to SLB's global customer base. (Photo: Business Wire)

optimizations across the entire energy value chain.

SLB's Delfi™ digital platform will be enhanced by leveraging the data foundations and machine learning capabilities of the Lumi platform. This will enable more powerful and agile reservoir modeling, seismic and wellbore interpretation, directional drilling and geosteering workflows. It also will enable new capabilities for automation and operational efficiencies so energy customers can drive high-value, low-carbon operations.

The Lumi platform integrates technologies from leading technology partners with SLB's digital and domain expertise to facilitate access to data and AI capabilities across the energy production cycle. The open architecture of the platform liberates data from structured and unstructured sources using standard and open protocols, including the Open Group's OSDU® Technical Standard, an open data standard for the energy industry. It leverages Cognite Data Fusion® to connect and analyze production data to optimize operations. The platform also complies with the National Institute of Standards and Technology (NIST) cybersecurity standards and emerging AI standards and legislation.

Today's announcement was made at the SLB Digital Forum, which is taking place this week in Monaco.

### Cautionary Statement Regarding Forward-Looking Statements:

This press release contains "forward-looking statements" within the meaning of the U.S. federal securities laws — that is, statements about the future, not about past events. Such statements often contain words such as "expect," "may," "can," "estimate," "intend," "anticipate," "will," "potential," "projected" and other similar words. Forward-looking statements address matters that are, to varying degrees, uncertain, such as forecasts or expectations regarding the deployment of, or anticipated benefits of, SLB's new technologies and partnerships; statements about goals, plans and projections with respect to sustainability and environmental matters; forecasts or expectations regarding energy transition and global climate change; and improvements in operating procedures and technology. These statements are subject to risks and uncertainties, including, but not limited to, the inability to achieve net-negative carbon emissions goals; the inability to recognize intended benefits of SLB's strategies, initiatives or partnerships; legislative and regulatory initiatives addressing environmental concerns, including initiatives addressing the impact of global climate change; the timing

or receipt of regulatory approvals and permits; and other risks and uncertainties detailed in SLB's most recent Forms 10-K, 10-Q and 8-K filed with or furnished to the U.S. Securities and Exchange Commission. If one or more of these or other risks or uncertainties materialize (or the consequences of such a development changes), or should underlying assumptions prove incorrect, actual outcomes may vary materially from those reflected in our forward-looking statements. The forward-looking statements speak only as of the date of this press release, and SLB disclaims any intention or obligation to update publicly or revise such statements, whether as a result of new information, future events or otherwise.
