## Item 7.01 Regulation FD Disclosure.

On September 6, 2023, Olivier Le Peuch, CEO of SLB, presented at the Barclays CEO Energy-Power Conference in New York, New York, where he discussed, among other things, SLB's performance strategy and outlook. Slides in connection with the conference are available on the SLB Investor Relations website at <https://investorcenter.slb.com/news-events/events-presentations>.

### Cautionary Statement Regarding Forward-Looking Statements

The presentation referred to above contains "forward-looking statements" within the meaning of the federal securities laws, which include any statements that are not historical facts. Such statements often contain words such as "expect," "may," "can," "believe," "predict," "plan," "potential," "projected," "projections," "precursor," "forecast," "outlook," "expectations," "estimate," "intend," "anticipate," "ambition," "goal," "target," "scheduled," "think," "should," "could," "would," "will," "see," "likely," and other similar words. Forward-looking statements address matters that are, to varying degrees, uncertain, such as statements about SLB's financial and performance targets and other forecasts or expectations regarding, or dependent on, its business outlook; growth for SLB as a whole and for each of its Divisions (and for specified business lines, geographic areas, or technologies within each Division); oil and natural gas demand and production growth; oil and natural gas prices; forecasts or expectations regarding the energy transition and global climate change; improvements in operating procedures and technology; capital expenditures by SLB and the oil and gas industry; SLB's business strategies, including digital and "fit for basin," as well as the strategies of SLB's customers; SLB's capital allocation plans, including dividend plans and share repurchase program; SLB's Asset Performance Solutions projects, joint ventures, and other alliances; the impact of the ongoing conflict in Ukraine on global energy supply; access to raw materials; future global economic and geopolitical conditions; future liquidity, including free cash flow; and future results of operations, such as margin levels. These statements are subject to risks and uncertainties, including, but not limited to, changing global economic and geopolitical conditions; changes in exploration and production spending by SLB's customers, and changes in the level of oil and natural gas exploration and development; the results of operations and financial condition of SLB's customers and suppliers; the inability to achieve SLB's financial and performance targets and other forecasts and expectations; the inability to achieve SLB's net-zero carbon emissions goals or interim emissions reduction goals; general economic, geopolitical, and business conditions in key regions of the world; the ongoing conflict in Ukraine; foreign currency risk; inflation; changes in monetary policy by governments; pricing pressure; weather and seasonal factors; unfavorable effects of health pandemics; availability and cost of raw materials; operational modifications, delays, or cancellations; challenges in SLB's supply chain; production declines; the extent of future charges; the inability to recognize efficiencies and other intended benefits from SLB's business strategies and initiatives, such as digital or new energy, as well as its cost reduction strategies; changes in government regulations and regulatory requirements, including those related to offshore oil and gas exploration, radioactive sources, explosives, chemicals, and climate-related initiatives; the inability of technology to meet new challenges in exploration; the competitiveness of alternative energy sources or product substitutes; and other risks and uncertainties detailed in SLB's most recent Forms 10-K, 10-Q, and 8-K filed with or furnished to the Securities and Exchange Commission (SEC). If one or more of these or other risks or uncertainties materialize (or the consequences of any such development changes), or should SLB's underlying assumptions prove incorrect, actual results or outcomes may vary materially from those reflected in the forward-looking statements. Forward-looking and other statements in the presentation regarding our environmental, social, and other sustainability plans and goals are not an indication that these statements are necessarily material to investors or required to be disclosed in our filings with the SEC. In addition, historical, current, and forward-looking environmental, social, and sustainability-related statements may be based on standards for measuring progress that are still developing, internal controls and processes that continue to evolve, and assumptions that are subject to change in the future. The forward-looking statements speak only as of the date of the presentation, and SLB disclaims any intention or obligation to update publicly or revise such statements, whether as a result of new information, future events, or otherwise.
