Date: August 7, 2026

This report presents payments made by SLB Limited and its consolidated subsidiaries ("SLB") to the United States (U.S.) federal government and non-U.S. governments for the purpose of the commercial development of minerals during the fiscal year ended December 31, 2025.

Payments

Payments, net of refunds, are disclosed on a cash basis according to the year during which the payment was made (rather than on an accrual basis). Only payments of the types defined within Section 13(g) of the Securities Exchange Act of 1934, as amended, and Rule 13q-1 and Form SD promulgated thereunder (collectively, the "Rules") and for which SLB made payments during the reporting period are presented.

All payments were made by the Well Construction Division, except for payments relating to the Clayton Valley project, for which payments were made by SLB New Energy, which is included in the "All Other" category in SLB's segment reporting.

Currency

All payments are reported in U.S. dollars (USD), which is SLB's reporting currency. Where a payment or series of payments is less than the equivalent of $100,000, such payments have been excluded (in line with the Rules). Payments made in other currencies have been converted into USD by converting the payment at the exchange rate existing at the time the payment was made.

Projects

Payments are grouped into projects, which, in accordance with the Rules, are defined as the combination of the (i) country and major political subnational jurisdiction where the commercial development of the resource is taking place, (ii) type of resource being commercially developed, and (iii) method of extraction. The resources being extracted are all minerals. Countries and political subnational jurisdictions are designated by ISO 3166 country and subdivision codes.
