#### NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

(Unaudited)

#### 1. Basis of Presentation

The accompanying unaudited consolidated financial statements of Schlumberger Limited and its subsidiaries (Schlumberger) have been prepared in accordance with generally accepted accounting principles in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X. Accordingly, they do not include all of the information and footnotes required by generally accepted accounting principles for complete financial statements. In the opinion of Schlumberger management, all adjustments considered necessary for a fair statement have been included in the accompanying unaudited financial statements. All intercompany transactions and balances have been eliminated in consolidation. Operating results for the three-month period ended March 31, 2018 are not necessarily indicative of the results that may be expected for the full year ending December 31, 2018. The December 31, 2017 balance sheet information has been derived from the Schlumberger 2017 audited financial statements. For further information, refer to the Consolidated Financial Statements and notes thereto included in the Schlumberger Annual Report on Form 10-K for the year ended December 31, 2017, filed with the Securities and Exchange Commission on January 24, 2018.

#### Recently Adopted Accounting Pronouncement

In May 2014, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update ("ASU") 2014-09, *Revenue from Contracts with Customers*. This ASU amended the existing accounting standards for revenue recognition and requires companies to recognize revenue when control of the promised goods or services is transferred to a customer at an amount that reflects the consideration a company expects to receive in exchange for those goods or services. Schlumberger adopted this ASU on January 1, 2018 using the modified retrospective transition method applied to those contracts which were not completed as of January 1, 2018. Prior period amounts have not been adjusted and continue to be reflected in accordance with Schlumberger's historical accounting. The adoption of this ASU did not have a material impact on Schlumberger's *Consolidated Financial Statements*.

Schlumberger recognizes revenue upon the transfer of control of promised products or services to customers at an amount that reflects the consideration it expects to receive in exchange for these products or services. The vast majority of Schlumberger's services and product offerings are short-term in nature. The time between invoicing and when payment is due under these arrangements is generally 30 to 60 days.

Revenue is occasionally generated from contractual arrangements that include multiple performance obligations. Revenue from these arrangements is allocated to each performance obligation based on its relative standalone selling price. Standalone selling prices are generally based on the prices charged to customers or using expected costs plus margin.

Revenue is recognized for certain long-term construction-type contracts over time. These contracts involve significant design and engineering efforts in order to satisfy custom designs for customer-specific applications. Revenue is recognized as work progresses on each contract. Progress is measured by the ratio of actual costs incurred to date on the project in relation to total estimated project costs. The estimate of total project costs has a significant impact on both the amount of revenue recognized as well as the related profit on a project. Revenue and profits on contracts can also be significantly affected by change orders and claims. Due to the nature of these projects, adjustments to estimates of contract revenue and total contract costs may be required as work progresses. Progress billings are generally issued upon completion of certain phases of work as stipulated in the contract. Any expected losses on a project are recorded in full in the period in which they became probable.

Revenue in excess of billings related to contracts where revenue is recognized over time was \$0.3 billion at both March 31, 2018 and December 31, 2017. Such amounts are included within *Receivables less allowance for doubtful accounts* in the *Consolidated Balance Sheet*.

Due to the nature of its business Schlumberger does not have significant backlog. Total backlog was \$2.8 billion at March 31, 2018, of which approximately 50% is expected to be recognized as revenue over the next 12 months.

Billings and cash collections in excess of revenue was \$0.9 billion at March 31, 2018 and \$0.8 billion at December 31, 2017. Such amounts are included within *Accounts payable and accrued liabilities* in the *Consolidated Balance Sheet*.

## Recently Issued Accounting Pronouncement

In February 2016, the FASB issued ASU No. 2016-02, *Leases*. This ASU requires lessees to recognize a right of use asset and lease liability on the balance sheet for all leases, with the exception of short-term leases. This ASU is effective for Schlumberger on

January 1, 2019, with early adoption permitted. Based on its current lease portfolio, Schlumberger estimates that the adoption of this ASU will result in approximately \$1.3 billion of additional assets and liabilities being reflected on its *Consolidated Balance Sheet*.

#### 2. Charges and Credits

#### 2018

There were no charges or credits recorded during the first quarter of 2018.

#### 2017

In connection with Schlumberger's acquisition of Cameron International Corporation ("Cameron"), Schlumberger recorded \$82 million of charges during the first quarter of 2017 relating to employee benefits, facility closures and other merger and integration-related costs. These charges are classified in *Merger & integration* in the *Consolidated Statement of Income*.

On December 22, 2017, the US enacted the Tax Cuts and Jobs Act (the "Act"). The Act, which is also commonly referred to as "US tax reform", significantly changes US corporate income tax laws by, among other things, reducing the US corporate income tax rate to 21% starting in 2018 and creating a territorial tax system with a one-time mandatory tax on previously deferred foreign earnings of US subsidiaries. As a result, Schlumberger recorded a net charge of \$76 million during the fourth quarter of 2017. This amount consisted of two components: (i) a \$410 million charge relating to the one-time mandatory tax on previously deferred earnings of certain non-US subsidiaries that are owned either wholly or partially by a US subsidiary of Schlumberger, and (ii) a \$334 million credit resulting from the remeasurement of Schlumberger's net deferred tax liabilities in the US based on the new lower corporate income tax rate.

Although the \$76 million net charge represents a reasonable estimate of the impact of the income tax effects of the Act on Schlumberger's *Consolidated Financial Statements* as of December 31, 2017, it should be considered provisional. Once Schlumberger finalizes certain tax positions when it files its 2017 US tax return, it will be able to conclude whether any further adjustments are required. Any adjustments to these provisional amounts will be reported as a component of *Taxes on income* in the reporting period in which any such adjustments are determined, which will be no later than the fourth quarter of 2018.

#### 3. Earnings Per Share

The following is a reconciliation from basic earnings per share of Schlumberger to diluted earnings per share of Schlumberger:

(Stated in millions, except per share amounts)

		2018		2017								
		Average			Average							
	mberger Income	Shares Outstanding	Earnings per Share		Schlumberger Net Income		Shares Outstanding	E	arnings per Share

Unvested restricted stock	-	8				-	5					
Diluted	\$ 525	1,394	\$	0.38	\$	279	1,402	\$	0.20			

The number of outstanding options to purchase shares of Schlumberger common stock that were not included in the computation of diluted earnings per share, because to do so would have had an antidilutive effect, was as follows:

	2018	2017
First Quarter	39	23

#### 4. Inventories

A summary of inventories, which are stated at the lower of average cost or net realizable value, follows:

(Stated in millions)

Less: Accumulated depreciation		26,548	26,237		
	\$	11,556	\$ 11,576		

Depreciation expense relating to fixed assets was \$523 million and \$613 million in first quarter of 2018 and 2017, respectively.

#### 6. Multiclient Seismic Data

The change in the carrying amount of multiclient seismic data for the three months ended March 31, 2018 was as follows:

(Stated in millions)

Balance at December 31, 2017	\$ 727
Capitalized in period	26
Charged to expense	(46)
Balance at March 31, 2018	\$ 707

#### 7. Intangible Assets

The gross book value, accumulated amortization and net book value of intangible assets were as follows:

		Mar. 31, 2018						Dec. 31, 2017

	\$	12,584	\$	3,367	\$	9,217	\$	12,567	\$	3,213	\$	9,354				

Amortization expense charged to income was \$165 million during the first quarter of 2018 and \$169 million during the fist quarter of 2017.

Based on the net book value of intangible assets at March 31, 2018, amortization charged to income for the subsequent five years is estimated to be: remaining three quarters of 2018—\$519 million; 2019—\$672 million; 2020—\$640 million; 2021—\$617 million; 2022—\$607 million; and 2023—\$594 million.

#### 8. Long-term Debt

A summary of *Long-term Debt* follows:

(Stated in millions)

	Mar. 31, 2018	Dec. 31, 2017
4.00% Senior Notes due 2025	\$ 1,742	\$ 1,741

Commercial paper borrowings	1,700	1,694
Other	557	598
	\$ 13,526	\$ 14,875

The estimated fair value of Schlumberger's *Long-term Debt*, based on quoted market prices at March 31, 2018 and December 31, 2017 was \$13.6 billion and \$15.2 billion, respectively.

Borrowings under Schlumberger's commercial paper programs at both March 31, 2018 and December 31, 2017 were \$3.0 billion, of which \$1.3 billion was classified in *Short-term borrowings and current portion of long-term debt* in the *Consolidated Balance Sheet*.

#### 9. Derivative Instruments and Hedging Activities

Schlumberger is exposed to market risks related to fluctuations in foreign currency exchange rates and interest rates. To mitigate these risks, Schlumberger utilizes derivative instruments. Schlumberger does not enter into derivative transactions for speculative purposes.

#### Interest Rate Risk

Schlumberger is subject to interest rate risk on its debt and its investment portfolio. Schlumberger maintains an interest rate risk management strategy that uses a mix of variable and fixed rate debt combined with its investment portfolio, and occasionally interest rate swaps, to mitigate the exposure to changes in interest rates.

During 2013, Schlumberger entered into a cross-currency swap for a notional amount of €0.5 billion in order to hedge changes in the fair value of Schlumberger's €0.5 billion 1.50% Guaranteed Notes due 2019. Under the terms of this swap, Schlumberger will receive

interest at a fixed rate of 1.50% on the euro notional amount and pay interest at a floating rate of three-month LIBOR plus approximately 64 basis points on the US dollar notional amount.

This cross-currency swap is designated as a fair value hedge of the underlying debt and is marked to market, with gains and losses recognized immediately in income to largely offset the effects on changes in the fair value of the hedged debt.

During 2017, a Canadian dollar functional currency subsidiary of Schlumberger issued \$1.1 billion of US dollar denominated debt. Schlumberger entered into cross-currency swaps for an aggregate notional amount of \$1.1 billion in order to hedge changes in the fair value of its \$0.5 billion 2.20% Senior Notes due 2020 and its \$0.6 billion 2.65% Senior Notes due 2022. These cross-currency swaps effectively convert the US dollar notes to Canadian dollar denominated debt with fixed annual interest rates of 1.97% and 2.52%, respectively.

These cross-currency swaps are designated as cash flow hedges. The changes in the fair values of the hedges are recorded on the *Consolidated Balance Sheet* and in *Accumulated Other Comprehensive Loss*. Amounts recorded in *Accumulated Other Comprehensive Loss* are reclassified to earnings in the same periods that the underlying hedged item affects net income.

At March 31, 2018, Schlumberger had fixed rate debt aggregating \$13.6 billion and variable rate debt aggregating \$4.5 billion, after taking into account the effect of interest rate swaps.

Short-term investments were \$2.3 billion at March 31, 2018. The carrying value of these investments approximated fair value.

#### Foreign Currency Exchange Rate Risk

As a multinational company, Schlumberger conducts its business in over 85 countries. Schlumberger's functional currency is primarily the US dollar. However, outside the United States, a significant portion of Schlumberger's expenses is incurred in foreign currencies. Therefore, when the US dollar weakens (strengthens) in relation to the foreign currencies of the countries in which Schlumberger conducts business, the US dollar-reported expenses will increase (decrease).

Schlumberger is exposed to risks on future cash flows to the extent that the local currency is not the functional currency and expenses denominated in local currency are not equal to revenues denominated in local currency. Schlumberger is also exposed to risks on future cash flows relating to certain of its fixed rate debt denominated in currencies other than the functional currency. Schlumberger uses foreign currency forward contracts to provide a hedge against a portion of these cash flow risks. These contracts are accounted for as cash flow hedges, with the changes in the fair value of the hedge recorded on the *Consolidated Balance Sheet* and in *Accumulated Other Comprehensive Loss*. Amounts recorded in *Accumulated Other Comprehensive Loss* are reclassified into earnings in the same period or periods that the hedged item is recognized in earnings.

At March 31, 2018, Schlumberger recognized a cumulative net \$5 million gain in *Accumulated other comprehensive loss* relating to revaluation of foreign currency forward contracts designated as cash flow hedges, the majority of which is expected to be reclassified into earnings within the next 12 months.

At March 31, 2018, contracts were outstanding for the US dollar equivalent of \$5.0 billion in various foreign currencies, of which \$1.8 billion relates to hedges of debt denominated in currencies other than the functional currency.

The effect of derivative instruments designated as fair value and cash flow hedges, and those not designated as hedges, on the *Consolidated Statement of Income* was as follows:

(Stated in millions)

#### 10. Contingencies

Schlumberger and its subsidiaries are party to various legal proceedings from time to time. A liability is accrued when a loss is both probable and can be reasonably estimated. Management believes that the probability of a material loss with respect to any currently pending legal proceeding is remote. However, litigation is inherently uncertain and it is not possible to predict the ultimate disposition of any of these proceedings.

First-quarter 2018 revenue of \$7.8 billion increased 14% year-on-year as the global rig count increased by the same percentage. The North America land rig count increased by 21% year-on-year, while the international rig count was up 8%. Production Group revenue increased 35% while Drilling Group revenue increased by 7%, both driven by strong land activity in North America. Cameron Group revenue increased by 7%, while Reservoir Characterization Group revenue declined 4%.

First-quarter 2018 pretax operating margin increased 145 basis points ("bps") year-on-year to 12%, as a result of improved profitability in North America due to the land activity growth that benefited the Production and Drilling Groups. As a result, Production Group pretax operating margin expanded 227 bps to 7% and the Drilling Group increased 222 bps to 14%. Reservoir Characterization Group pretax operating margin increased 240 bps to 20% while the Cameron Group was essentially flat at 13%.

#### **Reservoir Characterization Group**

First-quarter 2018 revenue of \$1.6 billion decreased 4% year-on-year primarily due to lower revenue on a long-term surface facility project in the Middle East.

Year-on-year, pretax operating margin increased 240 bps to 20% due to improved profitability for WesternGeco primarily as a result of a favorable mix of multiclient seismic license sales as well as reduced amortization following the multiclient impairment charge recorded during the fourth quarter of 2017.

### **Drilling Group**

First-quarter 2018 revenue of \$2.1 billion increased 7% year-on-year primarily due to higher demand for directional drilling technologies on land in both North America and Russia.

Year-on-year, pretax operating margin increased 222 bps to 14% primarily due to improved profitability in North America due to the increased land activity and improved pricing.

#### **Production Group**

First-quarter 2018 revenue of \$3.0 billion increased 35% year-on-year primarily due to the significant land activity growth in North America that benefited the hydraulic fracturing business.

Year-on-year, pretax operating margin increased 227 bps to 7% as a result of improved profitability in North America due to the growth in North America land activity combined with improved pricing.

During the first quarter of 2018, the US land pressure pumping business was impacted by weaker-than-expected activity as well as softer pricing as compared to the fourth quarter of 2017, rising supply chain costs, and rail logistical challenges. In spite of these factors, Schlumberger continued to deploy available fracturing assets, including equipment from our newly acquired capacity. Schlumberger expects the US land hydraulic fracturing market to improve during the second quarter of 2018, both in terms of pricing and in operational efficiency and it is, therefore continuing with its aggressive fleet reactivation and recommissioning program.

#### **Cameron Group**

First-quarter 2018 revenue of \$1.3 billion increased 7% year-on-year due to improvements on land in North America that benefited the short-cycle businesses of Valves & Measurement and Surface Systems.

Pretax operating margin of 13% was essentially flat year-on-year.

#### **Interest and Other Income**

Interest & other income consisted of the following:

(Stated in millions)

		First Quarter				
	2018	}		2017		
Equity in net earnings of affiliated companies	\$	14	\$	17		
Interest income		28		29		
	\$	42	\$	46		

#### Other

Research & engineering and General & administrative expenses, as a percentage of Revenue, for the first quarter of both 2018 and 2017 were as follows:

	First Qu	ıarter
	2018	2017
Research & engineering	2.2 %	3.1%
General & administrative	1.4%	1.4%

Research & engineering costs for the first quarter of 2018 have decreased as compared to the same period in 2017 as a result of cost control measures.

The effective tax rate for the first quarter of 2018 was 17.6% as compared to 14.8% for the same period of 2017. The effective tax rate increased as a result of the change in the geographic mix of earnings, as Schlumberger generated a greater portion of its pretax earnings in North America during the first quarter of 2018 as compared to the same period last year.

#### **Charges and Credits**

#### 2018

There were no charges or credits recorded during the first quarter of 2018.

#### 2017

In connection with Schlumberger's acquisition of Cameron, Schlumberger recorded \$82 million of charges relating to employee benefits, facility closures and other merger and integration-related costs. These charges are classified in *Merger & integration* in the *Consolidated Statement of Income*.

#### **Liquidity and Capital Resources**

<sup>(1) &</sup>quot;Net debt" represents gross debt less cash, short-term investments and fixed income investments, held to maturity. Management believes that Net debt provides useful information regarding the level of Schlumberger's indebtedness by reflecting cash and investments that could be used to repay debt. Net debt is a non-GAAP financial measure that should be considered in addition to, not as a substitute for or superior to, total debt.

<sup>(2)</sup> Includes depreciation of property, plant and equipment and amortization of intangible assets, multiclient seismic data costs and SPM investments.

<sup>(3)</sup> Includes severance payments of approximately \$76 million and \$140 million during the three months ended March 31, 2018 and 2017, respectively.

<sup>(4) &</sup>quot;Free cash flow" represents cash flow from operations less capital expenditures, SPM investments and multiclient seismic data costs capitalized. Management believes that free cash flow is an important liquidity measure for the company and that it is useful to investors and management as a measure of our ability to generate cash. Once business needs and obligations are met, this cash can be used to reinvest in the company for future growth or to return to shareholders through dividend payments or share repurchases. Free cash flow does not represent the residual cash flow available for discretionary expenditures. Free cash flow is a non-GAAP financial measure that should be considered in addition to, not as substitute for or superior to, cash flow from operations.

Key liquidity events during the first three months of 2018 and 2017 included:

• On July 18, 2013, the Schlumberger Board of Directors ("the Board") approved a \$10 billion share repurchase program for Schlumberger common stock to be completed at the latest by June 30, 2018. This program was completed during May 2017. On January 21, 2016, the Board approved a new \$10 billion share repurchase program. Schlumberger had repurchased \$421 million under the new program as of March 31, 2018.

The following table summarizes the activity under these share repurchase programs:

(Stated in millions, except per share amounts)

	Total cost of shares purchased		erage price baid per share
Three months ended March 31, 2018	\$ 97	1.4	\$ 69.79
Three months ended March 31, 2017	\$ 372	4.7	\$ 78.97

• Capital expenditures were \$0.5 billion during the first three months of 2018 compared to \$0.4 billion during the first three months of 2017. Capital expenditures for full-year 2018 are expected to be approximately \$2.0 billion as compared to \$2.1 billion in 2017.

Schlumberger operates in more than 85 countries. As of December 31, 2017, only five of those countries individually accounted for greater than 5% of Schlumberger's net receivables balance, of which only one (the United States) accounted for greater than 10% of such receivables.

As of March 31, 2018, Schlumberger had \$4.2 billion of cash and short-term investments on hand. Schlumberger had separate committed debt facility agreements aggregating \$6.5 billion that support commercial paper programs, of which \$3.5 billion was available and unused. Schlumberger believes these amounts are sufficient to meet future business requirements for at least the next 12 months.

Borrowings under the commercial paper programs at March 31, 2018 were \$3.0 billion.

#### FORWARD-LOOKING STATEMENTS

This first-quarter 2018 Form 10-Q, as well as other statements we make, contain "forward-looking statements" within the meaning of the federal securities laws, which include any statements that are not historical facts, such as our forecasts or expectations regarding business outlook; growth for Schlumberger as a whole and for each of its segments (and for specified products or geographic areas within each segment); oil and natural gas demand and production growth; oil and natural gas prices; improvements in operating procedures and technology, including our transformation program; capital expenditures by Schlumberger and the oil and gas industry; the business strategies of Schlumberger's customers; the effects of US tax reform; our effective tax rate; the success of Schlumberger's SPM projects, joint ventures and alliances; future global economic conditions; and future results of operations. These statements are subject to risks and uncertainties, including, but not limited to, global economic conditions; changes in exploration and production spending by Schlumberger's customers and changes in the level of oil and natural gas exploration and development; general economic, political and business conditions in key regions of the world; foreign currency risk; pricing pressure; weather and seasonal factors; operational modifications, delays or cancellations; production declines; changes in government regulations and regulatory requirements, including those related to offshore oil and gas exploration, radioactive sources, explosives, chemicals, hydraulic fracturing services and climate-related initiatives; the inability of technology to meet new challenges in exploration; the inability to retain key employees; and other risks and uncertainties detailed in this first-quarter 2018 Form 10-Q and our most recent Forms 10-K, 10-Q, and 8-K filed with or furnished to the Securities and Exchange Commission. If one or more of these or other risks or uncertainties materialize (or the consequences of any such development changes), or should our underlying assumptions prove incorrect, actual outcomes may vary materially from those reflected in our forward-looking statements. Schlumberger disclaims any intention or obligation to update publicly or revise such statements, whether as a result of new information, future events or otherwise.

#### Item 3. Quantitative and Qualitative Disclosures about Market Risk.

For quantitative and qualitative disclosures about market risk affecting Schlumberger, see Item 7A, "Quantitative and Qualitative Disclosures about Market Risk," of the Schlumberger Annual Report on Form 10-K for the fiscal year ended December 31, 2017. Schlumberger's exposure to market risk has not changed materially since December 31, 2017.

#### **Item 4. Controls and Procedures.**

Schlumberger has carried out an evaluation under the supervision and with the participation of Schlumberger's management, including the Chief Executive Officer ("CEO") and the Chief Financial Officer ("CFO"), of the effectiveness of Schlumberger's "disclosure controls and procedures" (as such term is defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the "Exchange Act")) as of the end of the period covered by this report. Based on this evaluation, the CEO and the CFO have concluded that, as of the end of the period covered by this report, Schlumberger's disclosure controls and procedures were effective to provide reasonable assurance that information required to be disclosed in the reports that Schlumberger files or submits under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms. Schlumberger's disclosure controls and procedures include controls and procedures designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is accumulated and communicated to its management, including the CEO and the CFO, as appropriate, to allow timely decisions regarding required disclosure. There was no change in Schlumberger's internal control over financial reporting during the quarter to which this report relates that has materially affected, or is reasonably likely to materially affect, Schlumberger's internal control over financial reporting.

#### PART II. OTHER INFORMATION

#### Item 1. Legal Proceedings.

The information with respect to this Item 1 is set forth under Note 10—Contingencies, in the Consolidated Financial Statements.

#### Item 1A. Risk Factors.

As of the date of this filing, there have been no material changes from the risk factors disclosed in Part 1, Item 1A, of Schlumberger's Annual Report on Form 10-K for the fiscal year ended December 31, 2017.

#### Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

**Unregistered Sales of Equity Securities** 

None

#### **Issuer Repurchases of Equity Securities**

As of March 31, 2018, Schlumberger had repurchased \$421 million of Schlumberger common stock under its \$10 billion share repurchase program.

Schlumberger's common stock repurchase activity for the three months ended March 31, 2018 was as follows:

(Stated in thousands, except per share amounts)

	Total number of	Average price	Total number of shares purchased as part of publicly announced	of s	nximum value hares that may be purchased under the

	1,397.0	\$ 69.79	1,397.0		

#### Item 3. Defaults Upon Senior Securities.

None.

#### **Item 4. Mine Safety Disclosures.**

Our mining operations are subject to regulation by the federal Mine Safety and Health Administration under the Federal Mine Safety and Health Act of 1977. Information concerning mine safety violations or other regulatory matters required by section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act and Item 104 of Regulation S-K is included in Exhibit 95 to this report.

#### **Item 5. Other Information.**

In 2013, Schlumberger completed the wind-down of its service operations in Iran. Prior to this, certain non-US subsidiaries provided oilfield services to the National Iranian Oil Company and certain of its affiliates ("NIOC").

Schlumberger's residual transactions or dealings with the government of Iran during the first quarter of 2018 consisted of payments of taxes and other typical governmental charges. Certain non-US subsidiaries of Schlumberger maintain depository accounts at the Dubai branch of Bank Saderat Iran ("Saderat"), and at Bank Tejarat ("Tejarat") in Tehran and in Kish for the deposit by NIOC of amounts owed to non-US subsidiaries of Schlumberger for prior services rendered in Iran and for the maintenance of such amounts previously received. One non-US subsidiary also maintains an account at Tejarat for payment of local expenses such as taxes. Schlumberger anticipates that it will discontinue dealings with Saderat and Tejarat following the receipt of all amounts owed to Schlumberger for prior services rendered in Iran.

#### **CERTIFICATION OF CHIEF EXECUTIVE OFFICER**

#### I, Paal Kibsgaard, certify that:

- 1. I have reviewed this Quarterly Report on Form 10-Q of Schlumberger Limited;
- 2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
- 3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
- 4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal control over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
  - a) Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
  - b) Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
  - c) Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
  - d) Disclosed in this report any change in the registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and
- 5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
  - a) All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
  - b) Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.

#### Mine Safety Disclosure

The following disclosure is provided pursuant to Section 1503(a) of the Dodd-Frank Wall Street Reform and Consumer Protection Act, which requires certain disclosures by companies required to file periodic reports under the Securities Exchange Act of 1934, as amended, that operate mines regulated under the Federal Mine Safety and Health Act of 1977.

The table that follows reflects citations, orders, violations and proposed assessments issued by the Mine Safety and Health Administration (the "MSHA") to indirect subsidiaries of Schlumberger. The disclosure is with respect to the three months ended March 31, 2018. Due to timing and other factors, the data may not agree with the mine data retrieval system maintained by the MSHA at www.MSHA.gov.
